Career Objective

A passionate and driven BCA student specializing in React Native mobile application development (Android & iOS). Skilled in building cross-platform apps with smooth UI/UX, state management, JWT authentication, REST API integration, and local databases (SQLite/Room). Leveraging background knowledge in Native Android (Kotlin) to bridge native functionality effectively. Seeking a React Native Developer role to build scalable, high-performance mobile applications in a growth-oriented environment.

Skills

- | | |
|---|---|
| • Mobile Development: | React Native (Expo, CLI), Native Android (Kotlin) |
| • Languages: | JavaScript (ES6+), Kotlin, Java |
| • State Management: | Redux Toolkit (RTK), Context API, React Hooks (useState, useEffect) |
| • Navigation: | React Navigation (Stack, Tab, Drawer) |
| • Networking & APIs: | REST API Integration (Axios, Retrofit) |
| • Local Storage & Databases: | AsyncStorage, SQLite, Room Database |
| • Backend & Auth: | Node.js, Express.js, JWT Authentication, MongoDB |
| • Architecture & Patterns: | MVVM, Component Lifecycle |
| • UI/UX Development: | Flexbox (React Native Styling), Material Design, Custom Components |
| • Tools & Platforms: | Git & GitHub, Android Studio, VS Code, Postman, Claude, Firebase |

Projects

InstaNews - App

- Built a news application using Retrofit to fetch real-time news from a REST API.
- Used RecyclerView for displaying news items and Glide for image loading.
- Implemented Search functionality, ViewBinding, and WebView to read full articles.
- Designed with Material Design components for clean and responsive UI.

NotesTodo - App

- Built a full-stack cross-platform mobile app (React Native + JavaScript) with Node.js, Express, and MongoDB backend for notes and todo management.
- Implemented secure JWT-based authentication with bcrypt password hashing and a forgot-password flow using email OTP verification.
- Designed category-based note organization with checklist-style todos, supporting full CRUD operations and persistent login via AsyncStorage.
